

RailBoss 4 R/C

***R/C Control
of your Locomotive
via
Battery or Track Power***

***or
Simple R/C Control of
your Track Voltage***

RailBoss 4 R/C

Everything you would expect and much more !

RailBoss 4 R/C

Robust User Friendly Electronics ...

- ***Standard 5 Amp Motor Driver
(Optional 10 Amp)***
- ***Reverse Input Voltage
Protection***
- ***Integrated Control
and Receiver***
- ***User Programmable Functions
(No Computer Required)***

RailBoss 4 R/C

The Usual Functions ...

- **Precise Speed Control via Push Buttons**
- **Selectable Rate from TX**
- **Controlled “Quick” Stop (to avoid gear damage)**
- **Direction Control with**
Constant Brightness Directional Lighting Outputs
- **Four Sound Trigger Outputs**

RailBoss 4 R/C

And Features Found Nowhere Else ...

- **Automated Station Stops via Track Magnets**
- **Run Multiple Trains on the Same Loop with automatic separation**
- **Low Battery Warning and Cutoff for Lithium Batteries**
- **Direct Control of Phoenix Sound Remote Un-Couplers** 
- **Random Track Activated Whistle**

RailBoss 4 R/C

The Perfect Size Transmitter ...

- **Fits in the Palm of your Hand or in your Pocket**
- **6 Buttons Control 13 Functions**
- **Long Life Battery**
No On/Off Switch
- **Internal Antenna**
- **Optional 2-Button Kid's Transmitter**
Lets them start train, Sound Whistle and Bell

RailBoss 4 R/C

The Best Radio System ...

- **2.4 GHZ, DSSS, FCC Certified**
Range up to 400' (Std TX), 800' (LR TX)
- **No Motor Interference Problems**
- **No Channels or Frequencies to Worry About**
- **No Long Antenna on TX or Train**
- **One Transmitter Controls All of your Trains,
Any One at a Time**

RailBoss 4 Trackside R/C for Track Power

RailBoss 4 Trackside R/C for Track Power

- **No Modifications to Loco Required !**
- **Use Existing Power Pack or any DC Power Supply**
- **Controls Voltage to the Track**
- **Up to 10 amps for Big Trains**
- **Save/Recall Running Speed**
- **Momentum**

Magnetic Critter Control

Designed for Continuous Running

Magnetic Critter Control

Designed for Continuous Running

- **Start / Stop via Hand Held Magnet and Hidden Reed Switch under Roof**
- **Automated Station Stops via Track Magnets**
- **Adjustable Running Speed and Accel Rate**
- **Low Cost, No R/C, Solution**

Simple Critter Control

Manual Operation

- **Speed adjustable via Roof Mounted Knob (Easily Disguised)**
- **Full 5-Amp PWM Motor Driver**
- **4 Wire Installation (Battery In, Motor Out)**
- **Low Cost, No R/C, Solution**

Battery Conversion

Modules

*Simplify Any Battery
Power Conversion*

Battery Conversion

Modules ***Simplify Any Battery Power Conversion***

- ***Power On/Off Switch, Fuse, Charging Jack***
- ***Screw Terminals, No Soldering***
- ***Extra Output Terminals for Sound Board***
- ***Door Mount for Trailing Cars***
- ***Floor Mount with Remote Charging Jack
For Tenders or Diesels***

MyLocoSound

Low Cost Steam & Diesel Sound

- **Only \$79 !**
- **Track or Battery Power**
- **Compatible with RailBoss R/C, AirWire, Revolution, RCS, and others**
- **Trigger sounds via R/C or Track Magnets**

MyLocoSound

Low Cost Steam & Diesel Sound

- **Chuff triggered via Cam or Voltage**
- **5 Remote Sound Triggers**
- **Customize Sounds to your Taste or Loco**
- **User Programmable via Universal TV Remotes**
- **Supply your own Speaker to fit your Locomotive**
